ABOUT

TOGETHER WE ACHIEVE WHICH NO ONE CAN ACHIEVE
ALONE

We are proud to introduce Shaikh Group of Companies (SGC) incorporated in 1989 by our illustrious and ambitious founder Shaikh Abdul Rasheed(late). With more profitability and determination of our qualified professionals, we were able to establish three companies; M/S Shaikh Tube Mills, M/S Shaikh Pipe Mills Pvt Ltd and Shaikh Engineering Company. We are one of the leading organizations engaged in the manufacturing of Steel Pipes, M.S Pipes, Scaffolding Pipes, CR tube and Elliptical tube in Pakistan to cater to Home and Industrial demand.

VISION

To ensure quality is not compromised and to be an international brand in future.

MISSION

Shaikh Group of Companies main strength has always been its quality and reliability through which the companies have achieved success and profitability in all these years. The companies have been striving hard to achieve more productivity and sustainability through better use of resources. Teamwork, better communication between our workforce, and employee empowerment has been and will remain our motive to ensure deadlines are met. Safety of people

and equipment as well as reduction of accidents will also be one of our top priorities in the years ahead.

ABOUT

SGC is equipped with the most experienced and determined professionals in the field of Engineering, Planning and Management in the Steel Pipe sector. Use of prime quality steel has helped us to conform to international standards. Being a quality producer of steel pipes and tubes, we cater to the following sectors:

- Oil & Gas
- Automotive Industry
- Transformer Industry
- Steel furniture
- Water
- Government Sector
- Commercial Construction

SGC is consistently endeavoring to achieve excellent standards through fully equipped plant and machinery by utilizing modern techniques. The staff includes qualified engineers and technicians to ensure quality standards. The group has an annual capacity of manufacturing 60,000 tons of pipes with imports of around 30,000 tons/year of prime quality Hot Rolled and Cold Rolled Steel coils. The group's head office is in Lahore while the two mills are situated in Karachi and Hub, Balochistan.
