EPP 5: Increasing the Number of Silicon Producers

Overview of the National Key Economic Areas

Oil, Gas and Energy

Palm Oil & Rubber

Financial Services

Tourism

Business Services

GNI by 2020 (mil)

RM 1,446

Projected jobs by 2020 20,000

EPP 5 targets to increase Malaysia's silicon production from 6,000 to 170,000 tonnes by 2020. Its key thrust is to establish one multinational corporation and develop two domestic silicon players each year until 2020.

Highlights

Tokuyama Corp's polycrystalline silicon plant in S commissioned in 2014 and operational in January
