About Us

Welcome and thank you for visiting Nine-Ring. ?Nine-Ring is a private held company and located in Binzhou (滨州) City in Shandong Province. ?It takes about one and a half hours drive (150 km) from Jinan (济南) International Airport or three hours drive (300 km) from Qingdao (青岛) International Airport to visit our manufacturing plant.

Since 1995, we have been producing and providing to our customers sucker rod and sucker rod reclamation services. ? Nine-Ring's manufacturing plant covered a total area of 128,000 square meters with a laboratory for testing and inspection. ? We have a team of 160 professional engineers and technical staff to support the daily operation and provide technical service to customers.

The annual production for **all types of sucker rod** is 14 million meter, including 10 million meter ultra high strength sucker rod supply regularly to all oil fields in China every year. ?**For tubing**, the annual production is a total of 60, 000 tones, consisting of upset tubing of 40,000 tones and special tubing of 20,000 tones (tubing with high strength connection, corrosion resistance, anti-galling and deformation resistance).

In 2006 and 2007, we have been granted to use API monogram for **API Spec. 11B** 《Specification for Sucker Rods》 and **API Spec. 5 CT** 《Specification for Casing and Tubing》 monogram.

All our products are manufactured according API Specification or exceed API Specification and backed by excellent production, testing and inspection facilities. ? **As a registered member for A.P.I Q1 Specification**, we have established an approved quality program for the manufacturing, inspection, testing and administration activities to meet all our customers' requirements of our products and service. ? Besides focusing on quality assurance commitment, we have also set up fund to support ongoing investments in research and development to ensure that the adaptability and suitability of mature products as well as launching of new products stability for customer concern. ?

Nine-Ring is proud of the dynamic growth, innovation and effort for setting and building quality in every activity and product. ? We believe that our products will definitely help you to address all your concern.
